

TECHNICAL SEMINAR

10 September 2024 | Bolton

MANAGING SKID RESISTANCE THE FACTS AND THE FRICTION

Event sponsored by

The RSTA is the industry focus for the quality delivery of long-lasting, cost-effective and sustainable road maintenance solutions.

ABOUT THIS EVENT

The seminar will focus on how monitoring, improving and maintaining skid resistance reduces accidents and delivers skid resistance policies whilst reducing carbon. It will include a range of speakers from the Road Safety Trust, Transport for Greater Manchester, Lincolnshire County Council and the supply chain.

The seminar, aimed at roads delegates including Inspectors, technicians, engineers and managers will be chaired by Adrian Tatum, director at Boundary Marketing and PR.

A similar event showed the importance of this knowledge being understood and discussed between all levels in the road service. It is hoped that many of you will be able to attend what will be an informative and useful event for road practitioners.
